EDUCATION

B. TECH (Electrical Engineering)	2022-2026	Delhi Technological University	8.26
CBSE (Class XII)	2022	St. Xavier's School	95.5 %
CBSE (Class X)	2020	St. Xavier's School	92.8 %

WORK EXPERIENCE

Analyst Intern | Pocket Fund | [LINK](#)

June 2025 – July 2025

- Performed detailed market research using platforms such as Reddit, Twitter to identify niche and underexplored SaaS products, generating a list of 100+ leads
- Created concise internal reports based on ghost deck content, summarizing key metrics such as ARR, MRR, product alignment, growth rate to support acquisition planning.
- Helped drive a community-led growth strategy that grew the subreddit by 66%, resulting in a 15% increase in off-market deal flow.

Summer Intern | Hero MotoCorp (HMCMM Auto Limited) | [LINK](#)

June 2024 – July 2024

- Shadowed 10 engineers in ECU software integration, gaining exposure to coordination and workflow management in a R&D setting.
- Developed a foundational understanding of operational processes within an automotive manufacturing environment.
- Gained firsthand experience in professional workplace culture, teamwork, and interdepartmental collaboration.

Growth and Research Consultant | Futuresite India Unified Ventures | [LINK](#)

April 2024 - May 2024

- Executed research on brand development strategies, recommending 5+ innovative initiatives that enhanced digital visibility by 25%.
- Analyzed the brand's website and social platforms, identifying 10+ optimization opportunities and drafting a data-driven enhancement roadmap that increased user engagement by 30%.
- Consolidated insights into a strategic pitch deck that secured approval from senior leadership for execution.

PROJECTS

Online Payment Fraud Detection | [LINK](#)

- Built and deployed a fraud detection system using Logistic Regression, K-NN, Decision Tree, and Random Forest, achieving 95% accuracy in classifying fraudulent transactions after performing in-depth EDA to uncover key fraud patterns.
- Developed an interactive Streamlit web app to showcase model performance and support user-friendly analysis.
- Compiled a detailed project report outlining the methodology, evaluation metrics, and key business takeaways to support informed decision-making.

Hotel Revenue Analysis and Dashboard Development Using Power BI | [LINK](#)

- Created an interactive Power BI dashboard for hotel revenue analysis, integrating dynamic filters and slicers to streamline insights from 10,000+ records, improving decision making.
- Built a relational data model connecting five primary datasets thus boosting data integrity
- Visualized key performance indicators (ADR, RevPAR, Occupancy Rate), providing detailed insights.
